

Evidence based, patient centred, service provision

Tuesday 25th November 2025

Pre-conference courses

0830	Registration opens
1000-1745	ASPIRE Venous The Edge Hub Hayley Moore and Emma Wilton
INSERT TIME	Conflict resolution Connexin Live, Hull - Level 1 Split Premium Lounge Dave Riding, Paul Rafferty
1000-1600	Mentorship Connexin Live, Hull - Ground Floor Back Hall Julie Haddock-Millar, Ian Chetter, Judith Long
0900-1720	ASPIRE to Lead Connexin Live, Hull - Level 1 Split Premium Lounge Mei Nortley, Kaji Sritharan
0900-1710	ASPIRE Trauma DoubleTree by Hilton Hull Ross Davenport, Chris Aylwin

Wednesday 26th November 2025

0730	Registration opens						
0800-1030	PAD, Renal Access, Carotid Abstract Session (Level 2 hall) Chairs: Athanasios Saratzis, Bridget Eagan, Alistair McCleary	SRS, Training, Audit Abstract session (Level 1 Premium Lounge split) Chairs: Matthew Bown, Patrick Coughlin, Celia Theodoreli-Riga	Aortic, Trauma Abstract Session (Main auditorium) Chairs: Rao Vallabhaneni, Jonathan Ghosh,Patrick Lintott	08:00 – 09:30 Venous Forum Abstract Session (Level 1 Premium Lounge split) Chairs: Sandip Nandhra and Dan Carradice	Introduction to Vascular Surgery Course (Live Lounge) Chairs: The Rouleaux Club <i>Supported by Conveners IVS Course* + Education Committee member</i>	CSVS Programme (The edge) Programme commences at 1300hrs.	BACPAR Programme (Back Hall - Ground Floor) 0900-0910 Welcome/ How to Slido - Chair/ASM Committee Upper Limb Hand Transplant Service – Sarah Taplin Outcomes of Hand Transplant - Joanna Burdon Upper Limb Salvage Surgery - Rob Bains PINTREST Working Group - Emma Kersey Questions
	VO1 ARM IschaEmia Study (ARMIES): A Multinational Prospective Study - Tamer El-Sayed	VO30 Assessing the clinical effectiveness of Dialkylcarbamoylchloride (DACC) coated post-operative dressings versus standard care in the prevention of Surgical Site Infection in clean or clean-contaminated, vascular surgery (DRESSINg Trial) – Arthur Lim	VO57 Peri-operative and long-term outcomes in elective Endovascular Aortic Repair (EVAR) vs Open Surgical Repair (OSR) of Abdominal Aortic Aneurysms (AAA): findings from the National Consultant Information Programme (NCIP) – Saakithyan Sritharan	VO81 Quantifying Research Inequality: A Statistical Comparison of Clinical Trial Output and National Capacity – Ayman Zyada	This course is offered by vascular trainees from the Rouleaux Club for people just starting out on the career ladder, or that have an interest in a career in vascular surgery.		
	VO2 Predicting Morbidity, Mortality, Revision and Ambulation in Patients Undergoing Major Lower Limb Amputation (MLLA) for Peripheral Arterial Disease (PAD) or Diabetes Mellitus (DM): Development and Validation of the St George’s post-Amputation; Ambulation, Morbidity and Mortality Prediction Score (StAMP score) – Robert Leatherby	VO31 Safety, efficacy and cost effectiveness of telemedicine in the management of leg ulcer - Christopher Onyekachukwu Nwaturor	VO58 Outcomes after implantation of endografts for intact infrarenal AAA repair: population-based cohort study using National Vascular Registry data – Panagiota Birmpili	VO82 The burden of lower extremity wounds in hospital adult inpatients – Manj Gohel	The course is suitable for people from medical students to pre-registrar level/equivalent level, however we are inclusive and everyone is welcome to join.		
	VO3 Non-contrast MRI Identifies Non-Crossable Arterial Plaque Composition and is Corroborated with Histology in an Amputated Limb CLTI Study – Alexander Crichton	VO32 A lack of diversity in academic vascular surgery leadership roles – a call to action - Tabitha Grainger	VO59 Sex-specific Differences in the Stress Response to AAA Repair – A Multicentre, Prospective Cohort Study – Michal Kawka	VO83 Ramadan Fasting as a Potential Trigger for Venous Thrombosis in At-Risk Individuals – Ayman Zyada	This is predominantly a practical hands-on course for skills that will suit everyone at every stage.		
	VO4 GLP-1 Receptor Agonists improve walking distance in patients with Peripheral Artery Disease – Avikalp Kishore	VO33 Infrared thermography and Invisible Infections: A pilot and feasibility study evaluating the utility of infrared thermography in predicting surgical site infection in acute, closed vascular surgical wounds – Shreya Bhatt	VO60 Cardiopulmonary exercise testing for patients undergoing elective open AAA repair, can we stratify risk further in fit patients? Sebastian Vaughan-Burleigh	VO84 Can we make endothermal ablation, for superficial venous incompetence, more green?- Lauren Shelmerdine	You will be sure to learn something new!		
	VO5 Identifying the most clinically effective exercise prescription for people with intermittent claudication (MAXIMISE): a component network meta-analysis – Sean Pymer	VO34 Development, Validation, and Predictors of Satisfaction from the PREMIERE Study – The First Vascular Surgery Patient-Reported Experience Measure (PREM) - Maram Darwish	VO61 Endovascular aneurysm repair with Perclose Proglide TM percutaneous access: success rate and factors associated with access failure - Shaneel Patel	VO85 Integrating Computer Vision and Natural Language Processing for Venous Duplex Scoring and Treatment Recommendations – Joseph Cutteridge	Objectives: 1. Learn about vascular surgery as a speciality 2. An opportunity to meet and network with current vascular surgery registrars and Rouleaux Club committee members 3. Learn basic skills in vascular suturing		
		VO35 Availability and Structure of Claudication Services in England: Insights from a Freedom of Information Request – Smaragda Lampridou VO36 Do nurse-led HOT clinics expedite the treatment of CLTI patients? – Chloe Lakin	VO62 Aetiology of acute mesenteric ischaemia will guide intervention choice Kenan Kabay VO63 Prevalence and Interactions of Anaemia, Frailty,	VO86 Graduated elastic compression stockings to prevent Post thrombotic syndrome: meta-analysis of randomised controlled trials – Kenan Sheikh-Yasin VO87 Evaluating AI language models for patient education on			

*Programme Subject to Change

	VO6 Prevalence and associations of anxiety and depression symptoms in patients with chronic limb-threatening ischaemia – John Houghton VO7 On the ‘beet’: Beetroot to Improve Walking Distance in Peripheral Arterial Disease – a systematic review and meta-analysis – Nabil Al-Bsat VO8 Transcather Arterialisation of the Deep Veins (TADV) is clinically acceptable and cost-effective in the UK NHS – Kaji Sritharan VO9 Outcome selection in real-world clinical effectiveness research: key considerations in the context of CLTI revascularisation - Frances Sheehan VO10 Groin Infection After Vascular Surgery: Risk Factors and Impact on Reintervention, Limb Loss, and Mortality - Yang Song Wash VO11 Characterising high-risk carotid plaques and endothelial (dys)function using non-contrast enhanced MRI – Darshan Barki VO12 Outcomes of cadaveric cryopreserved saphenous vein bypass in patients with no option CLTI. A retrospective multicentre cohort study of the use of RestoreFlow – Pushpa Veeralakshmanan VO13 Comparative assessment of pedal acceleration time (PAT) with other non-invasive tests of foot perfusion – Steven Wallace	VO37 Litigation Trends in Vascular Surgery in the UK: A Retrospective Analysis of NHS Resolution Data and the Impact of COVID-19 Pandemic – Porya Hassan Abadi VO38 Randomised Controlled Trials volume in relation to operative workload of major vascular procedures; how equitable are we? A systematic review and comparison with National Vascular Registry data – Harri Jones VO39 NCIP-reported readmissions in a UK vascular unit – Razhan Ali VO40 Blood Loss, Anaemia and HaemoSTasis management in major vascular surgery - The BLAST international study – Paris Cai VO41 Integrating VORTEX into ASPIRE: Early Evaluation of a Unified Digital Spine for Vascular Training – George Ninkovic-Hall VO42 A UK-wide survey of surgeons and anaesthetists regarding tranexamic acid (TXA) use in vascular surgery: is 'further research needed'? – Kasia Bera VO43 RE-BLEED: A digital platform for identifying bleeding patients: a feasibility study - Manik Chana VO44 Caught in the VORTEX: Early Utilisation and Engagement in a UK Digital Vascular Training Platform - George Ninkovic-Hall VO45 Under Pressure: Impact Of Trainer Behaviour On Trainee Cognitive Load And Operative Performance – Joe Norton VO46 A pilot feasibility study of infrared thermography in monitoring healing of chronic, open, vascular surgical wounds and guiding intraoperative debridement – Shreya Bhatt	And Sarcopenia in Fenestrated Endovascular Aortic Repair: A Comprehensive Longitudinal Analysis – Tamer El-Sayed VO64 Bridging the Gap: A Propensity-Matched Analysis of Sex Differences in Complex EVAR – Katarzyna Powezka VO65 Experience of Blunt Aortic Injury at a Major Trauma Centre – Danielle Joyce VO66 The UK experience of Fenestrated Endovascular Aneurysm Repair (FEVAR): long-term outcomes from the GLOBALSTAR registry study – Aurelien Gueroult VO67 Central Blood Pressure and Variability Evaluation: Assessing the impact of blood pressure and blood pressure variability on AAA growth rates – Edmund Charles VO68 A decade of Abdominal aortic aneurysm screening in the UK: Current effectiveness and future perspectives - Tania Hossne Tabassum Biut VO69 Integrating Frailty, Sarcopenia, and Anaemia into Risk Stratification Tool for Fenestrated Endovascular Aortic Aneurysm Repair Outcomes – Tamer El-Sayed VO70 Outcome of Mesenteric artery angioplasty/stenting in the management of chronic mesenteric ischemia – a tertiary centre experience – Prashant Neupane VO71 Impact of intensive care on patients undergoing vascular surgery: a systematic review and meta-analysis - Kitty Hf Wong	radiofrequency ablation of varicose veins – Ayman Zyada VO88 Role and Utilisation of Natural Language Processing in Venous Diseases – A Systematic Review - Georgia Packham VO89 A new AI architecture for single point of access vascular guideline retrieval – Benedict Turner VO90 Advancing Varicose Vein Treatment: The Role of a Sonographer-Led Sonovein service – Jenna Derry VO91 From addiction to intervention; early success of endovenous common femoral vein recanalisation in reformed drug users - Joseph Winstanley 09:30-10:30 Venous competition session 09.30 – 09.34 Pump priming grant winner 2024 - Progress into “Accelerating Wound Healing in Venous Leg Ulcers – A Multi-Modal AI Approach” – Henry Bergman 09.34 - 10.17 Pump priming competition presentations X7 10.17 – 10.30 Debate – Varicose veins are the most important vascular surgery problem? For - Chris Twine Against - Dan Carradice	4. Learn how to suture a patch and anastomose two vessels 5 . Advice on building your portfolio for a career in vascular surgery and more!		
--	--	--	---	---	--	--	--

*Programme Subject to Change

	VO14 Outcomes of Stent Configurations in Aortoiliac Occlusive disease: A Systematic Review and Meta-Analysis – Ashwin Sivaharan VO15 Non contrast magnetic resonance angiography outperforms digital subtraction angiography in detecting below-the-knee arteries in CLTI Patients with Severe Renal Dysfunction – Alexander Crichton VO16 Novel use of arm ergometry Cardiopulmonary Exercise Testing for non-elective patients with chronic limb-threatening ischaemia: a feasibility trial - Stacie Hodge VO17 Evaluation of Sex Specific Representation and Sex Disaggregated Reporting in the European Society of Vascular Surgery (ESVS) Clinical Practice Guidelines on the Management of Peripheral Arterial Disease and Chronic Limb Threatening Ischaemia – Noor Hamo VO18 Fate of Ischemic Heel Ulcers in Diabetic Patients: A Retrospective Cohort Study – Shiyanth Selvantharajah VO19 Histological Evaluation of Peripheral Arterial Interventions: Insights from Prior Interventions for Treating CLTI – Alexander Crichton VO20 Inter-Individual Variability in Platelet Function in Patients with Peripheral Arterial Disease Receiving Antiplatelet Therapy – Meiling Macdonald-Nethercott	VO47 Calculating and Reducing the Environmental Impact of Hybrid Endovascular Surgery – Yash Sharma VO48 Bridging the Gap: A Two-Cycle Audit of Discrepancies Between MDT Decisions and Treatment Implementation in Vascular Surgery - Armia Sargious VO49 Discharge Anaemia Predicts 28-Day Readmission Following Arterial Vascular Procedures: A Retrospective Cohort Study – Jamie Ong	VO72 Key Performance Indicators in major trauma haemorrhage: developing data-driven best practice for ‘Code Red’ trauma – Manik Chana VO73 Incidental aortic thrombus and inconsistent care: a growing need for an understanding and consensus – Fauzi Alhakmi				
--	---	--	--	--	--	--	--

*Programme Subject to Change

	VO21 Interval cerebrovascular events in symptomatic patients awaiting carotid endarterectomy before and during the COVID-19 pandemic – Zong Tse						
1030-1100	Coffee and Exhibition <i>Exhibition Hall Ground floor</i>						
1100-1200	PVD/ Carotid Abstract Session Chairs: Athanasios Saratzis, Bridget Eagan, Alistair McCleary VO22 Surgical Site Infections in Major Lower Limb Amputation: An International Multicentre Audit (SIMBA) – 1 Year Follow-Up – Ismay Fabre VO23 Pain Management in Chronic Limb-Threatening Ischaemia and Diabetic Foot Infection – Henry Davies VO24 Comparison of outcome prioritisation among patients with PAD and healthcare professionals – Akam Shwan VO25 Saving Legs – Micronutrient deficiencies & Chronic Limb Threatening Ischaemia (CLTI) – provisional results – Hannah O'Neill VO26 A systematic review and meta-analysis of endovascular recanalisation for chronically occluded native arteries after failed infrainguinal surgical bypass – Darshan Barki VO27 Predictors of mortality following major limb amputation: Retrospective review at a tertiary vascular centre – Stephen Crockett	SRS, Training, Audit Session Chairs: Matthew Bown, Patrick Coughlin, Celia Theodoreli-Riga VO50 Exposure to Varicose Veins Interventions amongst Vascular Specialty Trainees over the last 11 years: a cross-sectional logbook analysis – Hiba Abuelgasim VO51 Turn-down rate for major lower limb amputation (MLLA): key factors influencing surgical ineligibility – Arshia Rezaei VO52 Outcomes following calcanectomy as limb salvage in complex heel pathology: a 10-year retrospective review - Syed Muhammad Ahsan Nawaz VO53 Improving Compliance with Post-Operative VTE Prophylaxis in Aortic Surgery: A Three-Cycle Prospective Audit - Riya Varman VO54 Interventions to reduce surgical site infection in transmetatarsal forefoot amputations: A feasibility survey - Lakna Harindi Alawattagama VO55 Workload and trend analysis of endovascular procedures in a large Scottish Health Board 2015-2025 – Martin Hennessy VO56 The Rockwood Clinical Frailty Scale as a Predictor of Outcomes Following Lower Limb Amputation – Sayali Shirsath	Aortic/Trauma Abstract Session Chairs: Rao Vallabhaneni, Jonathan Ghosh, Patrick Lintott VO74 Polymer Ring Sealing Stents for Abdominal Aortic Aneurysms (AAA) with “hostile neck” feature. Hope patients “less fit” for open repair – Yasser Elsayed VO75 Outcomes of E-nside™ TAAA Multibranch Stent Graft System at Norfolk and Norwich University Hospitals – Stephen Crockett VO76 A regional UK study of cross-sectional imaging of the abdomen: what is the current burden of abdominal imaging – Liam Musto VO77 Physician-Modified Fenestrated Endovascular Aneurysm Repair: An Effective Option for Complex Abdominal Aortic Aneurysms Requiring Urgent Intervention - Sivaram Premnath VO78 Fenestrated-branch endovascular aortic repair after prior endovascular or open AAA repair is associated with inferior mid-term survival compared to primary repair – Katarzyna Powezka VO79 5 yearly virtual review of an EVAR surveillance cohort can improve efficiency – Steve Tang	Venous Forum Training Session Chairs - Hayley Moore and Taha Khan Superficial Venous Disease 11.00-11.14 Update on current options and their evidence - Tristan Lane 11.15 – 11.29 New treatments and the “weird and the wonderful” - Manj Gohel Deep Venous Disease 11.31 – 11.45 Acute DVT – Current options, current technology, what can we do now? - Emma Wilton 11.46 – 12.00 Chronic DVT – What do you want to see in a referral and what can we treat? - Sandip Nandhra	Introduction to Vascular Surgery Course Chairs: The Rouleaux Club <i>Supported by Conveners IVS Course* + Education Committee member</i>		Upper Limb National Outcomes from MAH trials/policy - Lindsey Barker/Victoria Bushell Upper Limb Rehab – Private - Lauren Young UL Service in Scotland - Grace Ferguson/Anne Sillitoe Questions

*Programme Subject to Change

	VO28 The impact of a nurse-led intermittent claudication clinic on service provision – Sean Pymer VO29 Cognitive impairment and cerebral haemodynamics in individuals with symptomatic peripheral artery disease – Beth Cheshire		VO80 Women turned down for AAA repair in contemporary practice – What Then Follows... - Joseph Harker				
1200-1300	<i>Exhibition Hall Ground floor</i> Lunch and Exhibition						
1300-1400	Joint Symposium – Claudication – the Multi-professional team Chairs: Ansy Egun, Kimberley Fairer, Jane Todhunter (Main Auditorium Level 3) Pharmacological interventions for intermittent claudication – Dr Marc Bailey, Associate Professor of Vascular Medicine, University of leeds Claudication clinics – Dr Sean Pymer, Exercise Physiologist, University of Hull Exercise interventions and apps – Dr Amy Harwood, Reader in Clinical Exercise Physiology, Manchester Metropolitan University Endovascular interventions & innovations – Dr Raghuram Lakshminarayan, Consultant Vascular Radiologist, Hull Surgical interventions & trials – Prof Thanos Saratzis, Chair of Vascular Surgery, University of Leicester			SVN programme (Level 1 Premium Lounge) Joint Symposium – Claudication – the Multi-professional team (Main Auditorium Level 3)		CSVs programme (The edge) Joint Symposium – Claudication – the Multi-professional team (Main Auditorium Level 3)	BACPAR programme (Back Hall - Ground Floor) Joint Symposium – Claudication – the Multi-professional team (Main Auditorium Level 3)
1400-1500	President’s Symposium “Leadership” Chairs: Prof. Ian CHETTER, Sadasivam Selvakumar, Colin Bicknell (Main Auditorium Level 3) Local clinical leadership; SMART solution to service challenges - George Smith Developing future leaders – Prof Fiona Myint Leading change within the NHS - Zubir Ahmed			Workshops (Level 1 Premium Lounge) Compression masterclass from groin to toe – Urgo. Samantha Haigh, Lisa Marsden and Scarlet Darling, clinical specialists. Larvae masterclass – Vicky Phillips, UK Clinical Support Manager, Biomonde		CSVs programme (The edge) President's Welcome Kamran Modaresi, CSVS President Introduction and Applications of TCD- Nazia Saeed	1410 Neurodivergence - Rachel Malcolm/Tabitha Heeley Early outcomes of TMR - David Leonard Questions
1500-1530	Coffee and exhibition						
1530-1615	NCEPOD / Trial results Chairs: Matthew Bown, Andrew Thompson, Jonathan Ghosh (Main Auditorium Level 3) NCEPOD ALI study: results and recommendations - Simon McPherson The Patient Centred Abdominal Aortic Aneurysm Study (PCAAAS): Managing AAA surveillance-related anxiety and exit strategies’. - Alicia O’Cathain	How I do it? Chairs: Patrick Lintott, Marcus Brooks, Marco Baroni Level 2 hall Through knee amputation - George Smith Deep venous interventions - Emma Wilton Retroperitoneal exposure of the major vessels - Professor Nigel Tai	Wound innovation Chairs: Nadine Lawrence and Annie Clothier BTM / Suprathel update – Vicky Bristow, Vascular specialist nurse, Cambridge Vascular unit Stimulan – Matthew Rothwell , Podiatric surgeon,	1500-1530 Neuro ITU TCD talk - Dr Manni Waraich- 1530-1600 Advanced TCD skills Hands on Session		1530-1550 Poster Presentations Complex Rehab Outcome following amputation in Sarcoma - Debbie Artis Hip Disarticulation on MPK - Peter Robinson	

	MIDFUT/DOMINO results - Dave Russell			Mid Yorks NHS trust Secreting larvae - Professor Nigam, researcher, Swansea University		MPK In Peads - Case Review - Eve McQuade UL prosthetics progression in multi limb loss - Claire Forsyth Questions
1615 -1700	The CF, you, and our patients’ Chairs: Neeraj Bhasin, Rachael Forsythe, Sarah Nduwayo, Kamran Modaresi, Kate Donovan (Main Auditorium Level 3) What can the CF do for you – Neeraj Bhasin What can you do for the CF – Neeraj Bhasin What can we do for our patients Better medical treatments for vascular patients, now and in the future – Marc Bailey Better identification and delivery of End of Life Care in vascular patients – Henry Davies Close – Neeraj Bhasin		Breakout session - Research Chairs: Rao Vallabhaneni, James McCaslin, Athanasios Saratziz (Level 2 hall) Late rupture following complex aneurysm repair: lessons froms UK-COMPASS trial – Shaneel Patel REVIVIAL trial - Sandip Nandhra RAF, RAVE, KID trials - Professor Athanasios Saratzis EARNEST trial - Professor Colin Bicknell ESTABLISH trial - Sandip Nandhra & Professor Athanasios Saratzis MOSAIC2 trial - Professor Lindsay Bearne HAMLET trial – George Smith	The CF, you, and our patients’ (Main Auditorium Level 3)		
1700-1730	Members Priority: Q&A Chairs: Ian Chetter, Marcus Brooks, Sadasivam Selvakumar (Main Auditorium Level 3)			Research update 1705-1800 Chairs: Gail Curran and Vicky Bristow (Level 1 Premium Lounge) Introduction to vascular research – Matt Bown, Professor of vascular surgery Venus 6 – Catherine Arundel, trial manager, York trials SWISHI2 – Annie Clothier, vascular specialist nurse, Aneurin Bevan Clarity – Ellie Atkins, Vascular registrar, East of England Deanery Thrive – Tristan Lane, Vascular Surgeon, Cambridge Placement – David Bosanquet, Vascular		1700-1800 AGM BACPAR Chair/Vice
1730-1800	Vascular Society Annual General Meeting Chair: Marcus Brooks (Main Auditorium Level 3)	Rouleaux Club Annual General Meeting Chair: Andrew Nickinson (Level 2 Hall)				

			surgeon. Cardiff Vale Health Board			
1800-1900	Welcome Reception from the Presidents of all the Societies					Exhibition Hall Ground floor
1930 -0000	Circulation Foundation Fundraising Evening - The Lexington Rooftop Bar, DoubleTree by Hilton, Hull					
	INVITE ONLY					
	Contact your industry reps if you would like a ticket to this event					
1930–2200	CSVS Networking Event – The Edge					

Thursday 27th November 2025

0730	Registration opens				
0800-0915	Training for a clinical academic career – higher degrees Chairs: Ian Chetter, Matthew Bown , James McCaslin (Main Auditorium Level 3) 0800-0845 Do I really need to do a PhD? Sarah Jane Messeder, Nottingham University Hospitals Magda Lampridou, Charing Cross Hospital Louise Hitchman, Hull York Medical School 0845-0915 New clinical trials Stepforward trial – Prof Natalie Vanicek, Hull ROSSINI trial – Mr Mike Wall, Dudley DRESSING trial – Dr Ross Lathan. Hull	0830-0915 Carotid Trials update Chairs: Richard Bulbulia and Kaji Sritharan (Level 2 Hall) ACST2; 10 year results – Alison Halliday ECST2 - implications for practice - Toby Richards CREST2 results - Richard Bulbulia Q&A - Implications for practice	SVN Programme (Level 1 Premium Lounge) 0900-0905 President’s address Jane Todhunter 0905-1000 James Purdie prize presentations Chairs Jane Todhunter and Siobhan Gorst 1000-1030 Deep venous disease symposium Chairs- Chiamaka Igbokwe and Kate Rowlands Management of the acute vs chronic iliofemoral deep vein thrombosis – Mr Sandip Nandhra, Vascular surgeon, Newcastle Management of the upper limb deep venous thrombosis - Diagnosis, treatment and prognosis - Mr Graeme Ambler, Vascular surgeon, Cambridge.	CSVS Programme (The Edge) 0900-1045 Newly Completed Scientific Abstract Presentation Prize session 0905-0915 The ulcer with no fixed abode: Barriers in accessing venous diagnostics and treatment for individuals experiencing homelessness and using intravenous drugs in Bristol, UK - Max Bitterlin Trainee Vascular Scientist University Hospitals Bristol And Weston 0917-0927 In-vitro investigation of non-imaging and imaging transcranial Doppler ultrasound agreement for system calibration and stroke risk stratification in sickle cell disease - Jennifer Stewart Trainee Clinical Scientist Guy's And St Thomas' NHS Foundation Trust 0930-0940 The level of agreement between Duplex Ultrasound (DUS) and Computed Tomography Angiography (CTA) reporting during routine abdominal Fenestrated Endovascular Aneurysm Repair (FEVAR) follow-up at a single centre - Adam Rasell-Watson Trainee Vascular Scientist University Hospitals Of Liverpool Group 0942-0952 Klippel-Trenaunay Syndrome (KTS): Correlations between quality of life and	BACPAR Programme (Back Hall - Ground Floor) 0900 Welcome - BACPAR Chair ADVANCE approach to rehab - Peter Le-Feuvre Strength and Conditioning Group - Charlie Crocker StepForward Trial - Natalie Vanicek Keep Moving - James Farrar Questions
0915-1030	Vice President’s Symposium Chairs: Keith Jones. Marco Baroni, Bridget Eagan (Main Auditorium Level 3) Changes to the Curriculum reflecting Practice - Harjeet Rayt Changes to the way we train - George Ninkovic-Hall Changing the Culture of Vascular Surgery developing Specialist Doctors- Vinita Shekar Changing Combined Endovascular with Open Revascularisation - Ash Patel Generating change in the delivery of Vascular Surgery using outcome data - Panagiota Birmpili				

				sonographically identifiable venous features - Alexandra Kountouros Trainee Vascular Scientist Royal Free London NHS Foundation Trust 1000-1010 Evaluating local aneurysm surveillance intervals for patients with multiple aneurysms in the aortic, common iliac and popliteal arteries through a growth rate analysis - Nada Mohamed Clinical Vascular Scientist University Hospitals Bristol and Weston NHS Foundation Trust 1012-1022 Investigating The Relationship Between Inflow Source, Haemodynamics and Patient Outcomes in Ultradistal Lower Limb Bypass Grafts - Moira Edwards Trainee Clinical Vascular Scientist King's College Hospital 1030-1050 Keynote Speaker Expanding the evaluation of revascularization in CTLI with tissue loss: The 'Woundsome' Concept - Dr Lorenzo Patrone San Giovanni di Dio Hospital	
1030-1100	<i>Exhibition Hall</i> Coffee and exhibition				
1100-1230	Sol Cohen Prize Session Chairs: Colin Bicknell, Jonathan Ghosh, Kaji Sritharan (Main Auditorium Level 3)	Sponsored Symposia (Level 2 Hall) 1100-1130 Shockwave Medical Sponsored Symposium	1100-1200 Vascular Trauma Chairs Jayne snellgrove and Kate Donovan Vascular & Endovascular management of trauma - Rob fisher, Vascular surgeon, LIVES Penetrating vascular trauma - Simon Neequaye, Vascular surgeon, LIVES Vascular injury in an armed conflict environment - Tim	1120-1300 Scientific and Case Study Abstract Presentations Prize session 1120-1130 Haemodynamic impact of stent packing density and overstenting across the common femoral artery bifurcation: A phantom-based study - Adam Geale Clinical Vascular Scientist	1100 Ultrasound Guided Injections for Neuroma - Prof Sivan Multi Limb Loss Case Study - Shaun Fryett 1135-1300 Abstracts 1135-1144 Our Shared Experience of Using an Adjustable Socket with a Microprocessor Knee
1230-1300	Kinmonth Lecture Chairs: Ian Chetter, Rob Sayers (Main Auditorium Level 3) UK Vascular Surgical Training – challenges and solutions - Ms Hannah Travers, Consultant Vascular Surgeon, Exeter and South Devon Vascular Network				

		Stansfield, Military and Vascular surgeon, Leeds Teaching Hospital 1200-1300 Presidents symposium Vascular nursing and beyond Chairs Jane Todhunter and Mellissa Hughes Route to Vascular consultant nurse, Leanne Atkin, Vascular nurse consultant, Mid yorks NHS Teaching Trust Route to Vascular Surgical care practitioner - Claire Marson, Surgical care practitioner, North cumbria integrated care Challenges as a clinical nurse specialist – Chiamaka Igbokwe, advanced clinical practitioner, Manchester The society of vascular nurses workforce survey - Ben Cooper, vascular nurse consultant, NHS Grampian	St. Thomas' Hospital (King's College London) 1132-1142 Life outside the lab: maintaining clinical excellency in a non-vascular environment - Ben Warner-Michel Clinical Specialist Ultrasonographer Kingston And Richmond NHS Trust 1144-1154 Obtaining pedal vessel flow measurements in routine practice, a feasibility study - Steven Wallace Clinical Vascular Scientist University Hospitals of Liverpool Group 1156-1206 Rare paediatric presentation of diffuse advanced Takayasu Arteritis; interval ultrasound surveillance of active arteritis progression; a sonographer's experience - Mary-Ellen Williams Sonographer Alder Hey Children's NHS Foundation Trust 1208-1218 Impact of Velocity Criteria on the Classification of Severe Carotid Artery Stenosis: A Retrospective Single-Centre Ultrasound Database Analysis - Siobhan Trochowski Vascular Scientist Oxford University Hospitals NHSFT 1220-1230 Comparative assessment of pedal acceleration time (PAT) with other non-invasive tests of foot perfusion - Steven Wallace Clinical Vascular Scientist University Hospitals of Liverpool Group 1232-1234	(MPK) as an Early Walking Aid – Chloe Farthing 1144 - 1153 Development of a multi limb loss necrosis pathway across an acute Extracorporeal membrane oxygenation (ECMO) and Vascular tertiary centre, using case studies to demonstrate the pathway reducing length of stay – Matthew Fuller 1153-1202 Prosthetic Limb Use or Not? Standardising the MDT pathway in a Regional Prosthetic Rehabilitation Service - The Results – Rachael Lovegrove 1202-1211 Navigating Complex Amputee Rehabilitation: When's the Right Time? Who decides? (a case study) – Caroline Hardman 1211-1220 Research is better when done together: launching the UK Amputee and Limb Different Research Community – Miranda Asher 1220-1229 The benefits and longer term impact expressed by limb difference adult patients who participated in a 6 week adaptive personal training course at the Bristol Centre for Enablement – Anne Harrill 1229-1238 What are the current physical activity levels in diabetic patients with an active foot ulcer? – Heather Waring 1238-1247 The outcome of an individual's pre amputation surgical preparation for through knee
--	--	---	--	---

				Congenital Atresia of the Inferior Vena Cava: Aetiology, Investigation and Management - Ben Warner-Michel Clinical Specialist Ultrasonographer Kingston And Richmond NHS Trust 1244-1254 Early postoperative duplex ultrasound-derived volume flow rate in the prediction of successful AVF maturation: a systematic review and meta-analysis - Luke Smith Principal Clinical Scientist Guy's & St Thomas' Nhs Foundation Trust	amputation as a result of congenital limb difference – Louise Tisdale Questions
1300-1400	Lunch and Exhibition / Poster Presentations Exhibition Hall Ground floor				
1400-1530	Vascular Society/ BJS Prize Session Chairs: Paul Moxey, Patrick Lintott, Athanasios Saratzis (Main Auditorium Level 3)	Sponsored Symposia (Level 2 Hall) 1400-1500 W.L Gore Sponsored Symposium	1345-1400 Society of Vascular Nurses AGM (members only) 1400-1445 Science, technology and duplex scanning (venous and arterial) Chairs: Ben Cooper and Leanne Atkin Science and technology of ultrasound - Melanie Harrison, consultant sonographer, mid yorks NHS trust Interpreting a duplex report, Steven Wallace, vascular clinical scientist, LIVES Live venous scan - Ben cooper vascular nurse consultant, Aberdeen 1445-1530 Promoting patient Self-care Chairs – Jane Todhunter and Vicky Bristow Promoting patient self care- Stephanie Lowen- Self management specialist, Leeds community healthcare	1355-1455 Vice President Session Greater Manchester and East Cheshire Vascular Network & GM Physiological Sciences Partnership Delivery Group - Dr Steve Rogers, Consultant Vascular Scientist & Scientific Director Manchester University NHS Foundation The East of England Physiological Sciences Network - Tanyah Ewen, Lead Clinical Vascular Scientist North West Anglia NHS Trust The Midlands Physiological Sciences Network - Joanne Walker, Chief Clinical Vascular Scientist University Hospitals of Leicester's Hospital My role as a speciality advisor and the NHS England vision for physiological networks - Teresa Robinson, Head of Physiological Sciences- NHS England South West and National Speciality Advisor	1400 World Cafe

*Programme Subject to Change

			Promoting self-care within venous leg ulceration and the barriers - Miss Layla Bolton – NIHR fellow -Imperial	1455-1510 Keynote Speaker The 2-year forward plan for the Academy of Healthcare Sciences - Professor Chris Hopkins President of the Academy for Healthcare Science 1510-1530 What information do the clinicians actually need? CT vs. Duplex? Patient Pathway. Diagnosis to Intervention - Mr Ramasubramanyan Chandrasekar, Consulant Vascular Surgeon Countess of Chester Hospital NHS Foundation Trust 1530-1545 Keynote Speaker Wavefore shapes, Analysis amd terminology - Matt Bartlett Head Clinical Vascular Scientist	
1530-1600	Coffee and Exhibition				
1600-1700	Aortic Best Practice Chairs: Marcus Brooks , Colin Bicknell, Alistair McCleary (Main Auditorium Level 3) NHS AAA Screening Programme – looking into the future- Akhtar Nasim Best practice management of juxta-renal abdominal aortic aneurysms - Prof Rao Vallabhaneni Management strategies for aortic graft infection - Rachel Bell The CERAB procedure for aorto-iliac occlusive disease - Rob Davies	Vern’s Dragons Den Chairs: Brenig Gwilym (Level 2 Hall) To be confirmed	1600-1645 The vascular ward round Leanne Atkin, Vascular nurse consultant, Mid yorks NHS Teaching trust Mark Portou, Vascular surgeon, Royal free London 1645-1700 Award Presentations Chair: Kate Rowlands Services to Vascular Nursing Bursaries	1615-1645 Jackie Walton Lecture Lasers used to check blood flow in people living with type 2 diabetes - Igor Meglinski Professor in Quantum Biophotonics & Biomedical Engineering, College of Engineering & Physical Sciences Aston University Birmingham 1645-1700 - Ann Donald Award - Prize giving - Honorary membership - AVS awards 1700-1800 AGM	Guidelines Update – Rachel Humperson Case Manager Role in Complex Rehab – Jonny Ritchie Richard Whitehead Foundation - Andy Brittles Day One Trauma – Harriet Hey Questions 1715 Prize giving & wrap up
1700-1800	MDT with Rouleaux club Chairs: Lauren Shelmerdine/ Mohamed Elkawafi Paddy Coughlin (Main Auditorium Level 3) To be confirmed	SAS/LED – Research outside formal training pathways Chairs: Andrew Irwin Khallaf and Kasia Bera, Keith Jones (Level 2 Hall) Research requirements for the Portfolio Pathway - Patrick Lintott Roads into research outside of training - Gabriel Lopez-Pena Participating in NIHR portfolio and other collaborative research studies and the NIHR Associate PI scheme – Prof Matt Bown Discussion and Q+A
